

LABOR DAY

Happy Labor Day

Labor Day is a federal holiday in the United States celebrated on the first Monday of September. Labor Day became a U.S. federal holiday in 1894, signed into law by Grover Cleveland our 22nd and 24th president in his second term.

Why do we have a Labor Day holiday?

Well, Labor Day celebrates the women and men who campaigned tirelessly for workers' rights in the labor movement of the late 19th century. Low wages, long hours (12-hour days were common), abusive managers, and dangerous working conditions (resulting in high accident rates) plagued the workplace in the late 19th century.

The Labor movement workers fought for the rights we enjoy and take for granted today, such as a 40-hour work week, paid overtime, safe work conditions, paid time off, and sick leave. Those workers saw that there could be no freedom and liberty in this country without economic freedom for the working class. This holiday honors the source of this nation's strength—American workers.

No matter how you decide to celebrate Labor Day 2024, take some time to pay tribute to all the laborers, past and present, who helped build America and make it the country it is today. Especially those in the Labor movement of the late 19th century.

Our efforts continue to build the Economy of the United States and in many parts of the World. Recognizing our efforts are a continuation of the reason for this holiday.

As listed last year, various positions that Levingston Employees perform work day in and day out are:

*Accounting Specialist
Application Specialist
Civil/Structural Designer
Control Systems Designer
Construction Coordinator
Control Systems Designer*

*Administrative Assistant
Authorized Inspector
Civil/Structural Engineer
Control Systems Engineer
Construction Manager
Cost Analyst*

*Data Management
Document Controller
